VOL. 3 SUBJECT INDEX

A

Adolescent psychotherapy, 69-100
 Adolescents, 25-46
 AIDS risk, 130-143
 Alcohol assessment, 323-338
 Alcohol use, 323-338
 Assessment, 172-178
 Assimilative integration, 47-58

B

Body image disturbance 183-202
 Book reviews, 101-104, 268-272, 372

C

Change, 256-259
 Child and adolescent psychotherapy,
 69-100
 Clinical judgment, 160-163, 241-244
 Clinical practice, 168-171
 Clinical research, 168-171
 Clinical significance, 172-178
 Combined treatments, 69-100
 Common factors, 241-244, 256-259
 Cultural competence, 273-295

D

Dangerousness, 203-215
 Dangers of integration, 59-68
 Database management, 146-159
 Dependency, 1-12
 Dependent personality disorder, 1-12
 Depression, 310-322
 Diagnosis, 1-12, 168-171, 296-309
 Diathesis-stress, 310-322
 Dissemination, 236-240
 Dissociation, 366-371
 Distinctions, 251-255
 Drinking behavior, 323-338

E

Eating disorders, 183-202
 Effective psychotherapy, 160-163
 Effectiveness, 218-229, 256-259
 Efficacy, 236-240, 251-255, 256-259,
 260-263
 Empirically validated treatments,
 241-244, 260-263
 Epidemiology, 25-46
 Ethnic minority, 273-295
 Etiology, 183-202
 Evaluation, 144-145, 146-159,
 160-163
 Evidence, 256-259
 Expressed emotion, 310-322

F

Family stress, 310-322
 Feminist approaches, 183-202

G

Generality of effectiveness, 236-240

H

Health care policy, 245-250
 HIV-AIDS prevention, 130-143

I

Issues, 218-229

L

Licensing, 179-181

M

Managed health care, 164-167,
 168-171
 Manual-based treatment, 241-244

Manuals, 13-24, 264-267

Matching, 241-244

Memory, 356-362

Mental health outcome evaluation,
 105-129

Meta-analysis, 203-215

Multimodal treatment, 69-100

Myth, 356-362

N

Nature of science, 366-371

O

Outcome measures, 164-167
 Outcome research, 245-250
 Outcomes, 251-255, 264-267

P

Practice standards, 179-181
 Prejudice, 296-309
 Private practice, 146-159, 160-163,
 172-178, 179-181
 Process, 13-24
 Psychiatric disorders, 323-338
 Psychological interventions, 236-240
 Psychometrics, 323-338
 Psychopathology, 296-309
 Psychopathy Checklist, 203-215
 Psychotherapists 363-365
 Psychotherapy, 13-24, 218-229,
 236-240, 245-250, 251-255,
 260-263, 264-267, 296-309
 Psychotherapy integration, 47-58
 Psychotherapy outcome, 172-178
 Psychotherapy research dissemination,
 230-235

Psychotherapy research manuals,
230-235

Psychotherapy research outcome,
230-235

Psychotherapy research treatment
integrity, 230-235

Q

Quality care, 273-295

R

Racism, 296-309

Recidivism, 203-215

Recovered memories, 363-365

Recovered memory therapy, 366-371

Repressed memory, 356-362

Repression, 366-371

Research, 264-267

S

School refusal behavior 339-354

Science, 160-163

Scientific controversy, 366-371

Scientist-practitioners, 179-181

Self-report, 323-338

Self-report bias, 1-12

Seriously mentally ill adults, 130-143

Sex bias, 1-12

Sexual abuse, 363-365

Standardizing, 13-24

Suicide, 25-46

T

Taxonomy, 339-354

Theoretical consistency, 59-68

Theories, 183-202

Theories versus techniques, 59-68

Therapist, 260-263

Training, 218-229, 260-263

Treatment, 25-46

Treatment integrity, 146-159

Treatment outcome, 146-159

Treatments of choice, 59-68

V

Validated treatments, 216-217

Validation, 218-229, 245-250,
251-255, 264-267

Variability, 13-24

Violence, 203-215

Vulnerability, 310-322

Y

Youngsters, 339-354
